FOLLOW ME BRUSHLESS DRONE WITH GPS AND 5G-WIFI FPV

*Please read this manual carefully before operation and keep it properly for future reference.

Undercarriage installation

Insert the tail of the undercarriage into the holes located at the bottom of the motors and fix the screws to fasten.

Battery installation

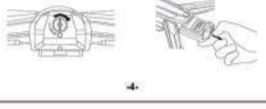

Slide the battery into the battery compartment at the rear of the drone by pushing with appropriate force. Then, slowly close the tail of the tail unit located at the rear of the battery to the "C" position to confirm the battery is inserted firmly.

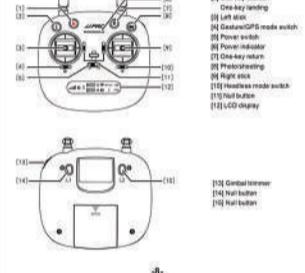

Attention: The battery should be installed firmly. Failure to do so may affect the flight safety of your drone. The drone may crash due to power-off during the flight.

How to remove the battery

Turn clockwise of the lock at the rear of the battery to "T" position, then pull your thumb and index finger on the designated position and pull backward with appropriate force, the battery will be removed. To avoid slipping, please keep your finger and your thumb dry and clean.

Major parts of the remote controller

How to install the battery of remote controller

Open the battery cover, install 4*AA batteries into the battery compartment according to the polarities and then close the battery compartment.

Important statement and safety guidelines

Thank you for purchasing JPRO product. Please read this manual carefully before use and retain it for future reference.

Packaging note

Please take care to keep items in its original packaging. If the item is assembled and separated properly, that must ensure its safety. Improper separation may cause injury or property damage.

● This item is applicable to pilots aged 14+ who are skilled flyers.

● Users are in full charge of operating the drone. Manufacturer and dealers disclaim any responsibility for damages caused by misuse.

● Keep the small accessories away from kids to avoid accident.

Flight safety guidelines

Hobby grade radio control drone is concerned to provide the highest potential safety. Users should firmly uphold the principle of "Safety first". Never fly the drone near airports, above roads or in areas where dangerous goods and understand the responsibility of the accident may cause to your operation.

* Stay away from obstacles, crowds, power lines, trees or water

Always choose a wider open area for every flight, away from people and property. Never fly directly over people or animals. Please don't fly in such bad weather conditions as lightning, snow, strong wind (level 5), rain or fog. Maintain a 20m distance from the drone when taking off and landing.

* Keep the drone in dry environment

The drone is comprised by sophisticated electronic components and mechanical parts. To avoid damages on the mechanical and electronic components, please keep the drone in dry environment and use clean cloth to wipe the surface and keep it clean.

* Practice flying together with skillful pilot

Beginners are suggested to practice flying together with skillful pilot's guidance. Do not fly alone.

* Wear protective equipment

Wear protective equipment such as a helmet, goggles, and gloves when flying the drone.
